Luwana SCHALL (Organiser, IBFI, DECI)

Edouard Jouselin is an Economist in the division of macroeconomic analysis and forecasting at Banque de France. He is head of the French GDP nowcasting unit. In this capacity, he participates in monitoring and modeling short-term forecasts for the French economy, on both the supply and demand sides.

Julien André is currently an Economist in the division of macroeconomic analysis and forecasting at the Banque de France. He studied at Mc Gill University Qc Canada and works in the French GDP nowcasting unit. His main tasks consist in monitoring and modeling short-term forecasts for the French economy, on both supply and demand sides.
