

## Corporate bankruptcies – France • May 2020

### Period under review: April 2020

In April 2020, the number of corporate bankruptcies decreased by 19.1% year-on-year

- This decrease does not reflect a reduction in the number of distressed firms, but rather the impact of the lockdown on the operation of commercial jurisdictions and regulatory changes that temporarily modify the dates for characterising and declaring a firm as insolvent.
- It can be observed in all sectors of activity and for all sizes of companies, without it being possible to analyse it from an economic point of view.

**To find out more:** data on business start-ups are reported by the French National Institute of Statistics and Economic Studies (INSEE): [Business start-ups on the INSEE's website](#)

### A – Corporate bankruptcies by sector

Bankruptcies in number of legal units, year on year change (%)

Business sector	Aggregate over the last 12 months <sup>a</sup> (gross data)				Quarter to Quarter sa / wda <sup>b,c</sup>		Monthly data sa / wda <sup>c</sup>		
	Apr. 19	Apr. 20	Apr. 20/Apr. 19	May 20 prov.	May 20/May 19	Apr. 20	Feb. 20	Mar. 20	Apr. 20
Agriculture, forestry and fishing (AZ)	1,415	1,157	-18.2 %	1,037	-27.6 %	-55.3 %	55	55	33

## Impact of the lockdown and of the adaptation of the regulations concerning companies in difficulty on corporate bankruptcies statistics

In the context of the Covid-19 health crisis, at a time when economic activity slowed down sharply, putting a large number of companies in difficulty, the number of corporate bankruptcies paradoxically posted a marked decline. This can be explained both by the lockdown which affected the functioning of commercial courts, and by the adaptation of regulations which temporarily granted additional time both to assess the state of insolvency and to report it.

Number of monthly corporate bankruptcies (gross data, 2018 – 2020)

Source: Banque de France, Companies Directorate, Data available at end-June 2020: final data up to April 2020, provisional for May 2020.

The closure from 16 March 2020 of all courts (with the exception of courts that have to judge "essential disputes", which do not include the commercial courts) sharply reduced the activity of commercial courts, which was essentially dematerialised during the lockdown. As a result, the opening or conversion of a large number of proceedings was postponed.

The Order 2020-341 of 27 March 2020 adapting the rules regarding companies and agricultural holdings in difficulty to the health emergency and amending certain provisions of criminal proceedings, also introduced changes likely to postpone the examination of situations of insolvency for companies whose situation worsened during the period of economic slowdown. In particular, it provides that until 24 August 2020:

- the assessment of the situation of insolvency be frozen at 12 March 2020 (Article 1, I, 1°) ;
- conciliation periods be automatically extended (Article 1, II);
- safeguard plans be extended by decision (Article 1, III).

Thus, for the period from 12 March to 24 August 2020, a company that would have been considered as being insolvent under the previous regulations will not be considered as such since its situation will be assessed at 12 March 2020, the date on which it was not insolvent.

At the same time, Order 2020-306 of 25 March 2020 provides that the requests for the initiation of collective proceedings, for any company considered insolvent, due to be made between 12 March 2020 and 24 June 2020, be deemed to have been made within the legal timeframe, if they are made within the legal timeframe as from 24 June 2020 (i.e. 45 days, see Article L631-4 of the French Commercial Code). Thus, declarations that would otherwise have been made earlier will be carried forward after this date.
