

## Securities issues by French residents as at 31<sup>st</sup> December 2021

### Non-resident holding rate of French securities slightly decreased in 2021

- At the end of December 2021, the non-resident holding rate of securities issued by French residents was 48 % (against 49 % in 2020 and 50 % in 2019).
- In 2021, the non-resident holding rate of long-term debt decreased for securities issued by general government (from 49 % at the end of 2020 to 47 % at the end of 2021) and non-financial corporations (from 59 % to 58 %) while it increased for securities issued by banks (from 64 % to 67 %).
- The share of France in the euro area gross issues stabilized at 30 % at the end of 2021.

**Graph 1 : Non-resident holdings of long-term debt (by resident issuer sector)**

**Graph 2 : Breakdown by holder sector of securities issued by residents (total debt and quoted shares) at end of December 2021**

This document is prepared by the General Directorate of Statistics, Economics and International of the Banque de France (Balance of Payments Directorate). Issuance data is based on issuers' reporting, while holding statistics is calculated using custodian account statements. Further information on custodian activities : <https://www.banque-france.fr/statistiques/parution-reference-name/conservation-de-titres>

"Long-term" stands for securities with an original maturity of more than one year.

Data reported in this document can be revised following quarterly and annual corrections and supplements.
