For information :

<i>Main refinancing operations' rate in the Eurosystem</i>	2.50	4.50	4.50	4.50
<i>3-month Euribor (e.)</i>	2.35	3.97	3.94	3.93
<i>Performance of the Constant Maturity Rate of 2 years (d.), (f.)</i>	2.67	3.09	2.61	2.65
<i>Performance of the Constant Maturity Rate of 5 years (d.), (f.)</i>	2.52	2.91	2.38	2.46

Note: Due to rounding, the sum may differ slightly from the total of the components

- Interest rates presented here are effective rates calculated by dividing the accrued interest flows for the months under review by the monthly averages of the corresponding outstanding amounts. For the different types of deposits, including step-up deposits, they correspond to the average conditions practiced during the month under review by the French credit institutions on deposits of non-financial corporations and households (including non-profit institutions serving households) residents.
- In addition to the households' and NFC's deposits, the global deposits remuneration rate includes other money-holding sectors (other general government, insurance corporations, non-monetary market funds, investment funds and securitization vehicle)
- Including taxed saving books, other special saving accounts, people saving plans (PEP) and subordinated loans
- Regulated rates passbooks include passbooks A, blue passbooks, sustainable development passbooks, home savings plans, youth passbooks and people's savings passbooks.
