PLAN VISIT

Dear visitor, welcome to the Banque de France for the European Heritage Days!

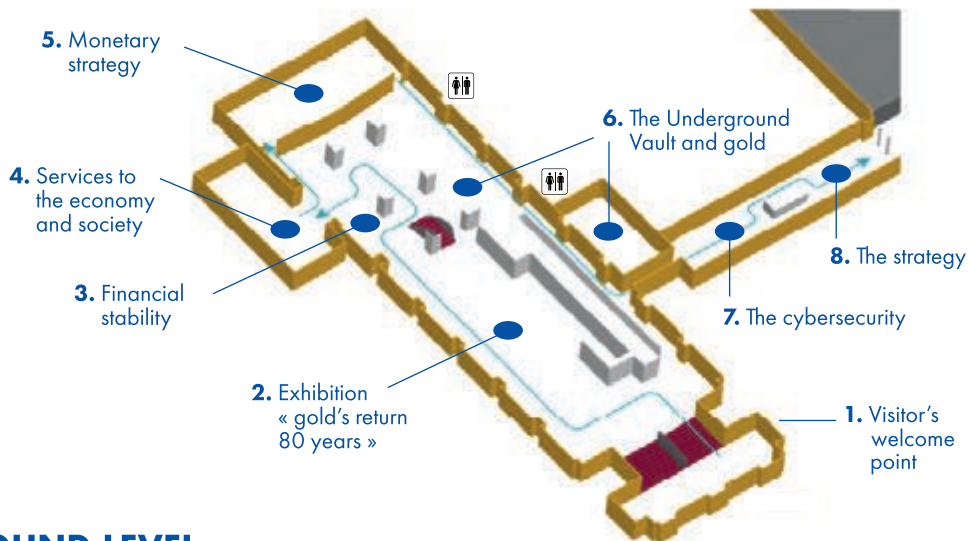

I am Lucia, your guide, and you'll be able to follow me throughout your visit.
Each point of interest on the itinerary is identified by a marker.

- **The first part of the visit focuses on the Banque de France's three main missions:** monetary strategy, financial stability and services to the economy and society.
- **Then, dive in the vault universe, where France's gold is located, right under your feet!**
- **Then, your visit will take you through the areas dedicated to the different activities of the Banque de France, before arriving at the Hôtel de Toulouse and its architectural treasures.**

I hope you enjoy your visit and learn more about our institution.

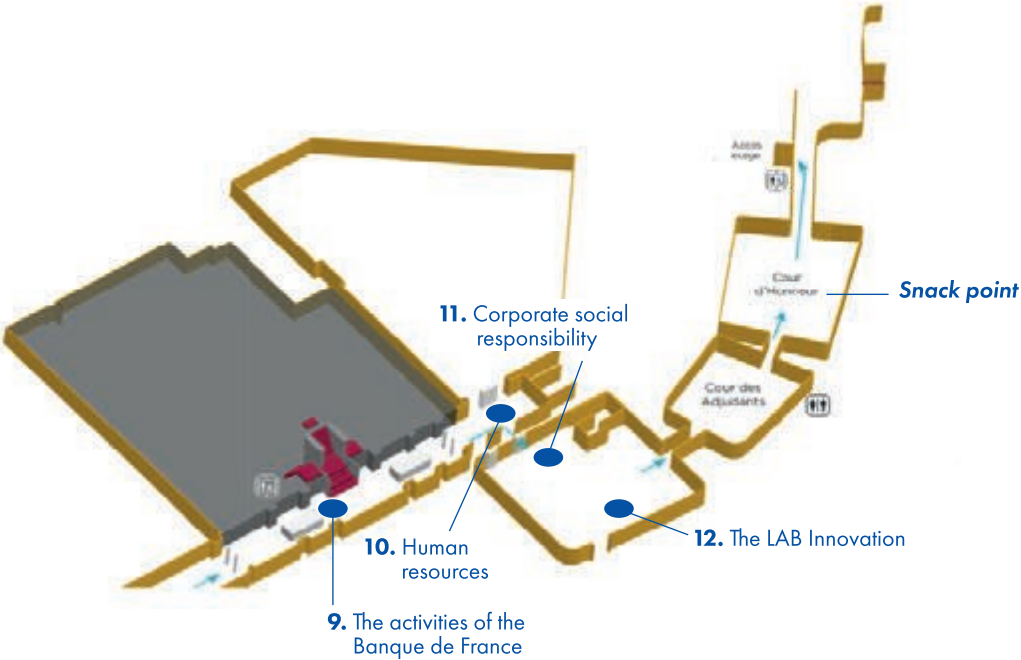

Don't hesitate to ask Banque de France staff any questions you may have throughout your visit to make sure you get the most out of the experience.

Enjoy your visit!
