Introduction

The Banque de France (BdF) and the European University Institute (EUI) are launching a joint European workshop that will take place fully online on February 11, 2025. The topics addressed in this workshop will include the governance of domestic and foreign investment, and the economic implications of income (risk) inequality for cross-border insurance and investment.

This workshop part of the initiative of the EMU Lab at the EUI, promoted by the Tommaso Padoa Schioppa Chair and the Pierre Werner Chair.
