The European Central Bank (ECB) has published consolidated banking data as at end-March 2025, a dataset for the EU banking system compiled on a group consolidated basis.

The quarterly data provide information required to analyse the EU banking sector and comprise a subset of the information that is available in the year-end dataset. The data cover 338 [banking groups](#) and 2317 [stand-alone credit institutions](#) and non-EU controlled subsidiaries and branches operating in the EU, accounting for nearly 100% of the EU banking sector's balance sheet. They include an extensive range of indicators on profitability and efficiency, balance sheet composition, liquidity and funding, asset quality, asset encumbrance, capital adequacy and solvency. Aggregates and indicators are published for the reporting population.

Reporters generally apply International Financial Reporting Standards and the European Banking Authority's Implementing Technical Standards on Supervisory Reporting. However, some small and medium-sized reporters may apply national accounting standards. Accordingly,

Notes

- The data for Denmark were still subject to rigorous quality checking at the time of publication, therefore Danish values for Q1 2025 are not disseminated individually, while they are still included in the EU aggregates.
- These consolidated banking data are available in the [ECB Data Portal](#).
- More information about the methodology used to compile the data is available on the [ECB's website](#).
