| <b>3:30 PM</b>   | <b>END OF DAY 2</b>                                                                                                                                          |

DSMF: Monetary and Financial Statistics directorate; DEMFI: Monetary and Financial Analysis directorate; DDSA: Data and Analytical Services directorate; IBFI: International Banking and Finance Institute

**Noorida HUSAIN** is Head of the Insurance and Pension Funds Unit (SEFT, DSMF, DGSEI) at the Banque de France. A qualified actuary certified by the Institut des Actuaires in Paris, she holds Master's degrees in Financial Audit from Paris Dauphine University and Actuarial Science from Sorbonne University, and completed part of the ACCA qualification pathway. Following an early career at PwC in insurance financial audit, she spent more than 10 years at the ACPR in insurance supervision before joining the SEFT (DGSEI), where she now leads the Insurance and Pension Funds Unit.

**Nicolas DUMAS** is Head of the Investment Funds Data Synthesis Unit (SEFT, DGSEI) at the Banque de France. Following several years in economic and actuarial studies at AXA, Willis Towers Watson and the ACPR, he joined the Banque de France, where he now leads the Investment Funds Data Synthesis Unit. He holds a PhD in Economics from Paris II Panthéon-Assas University.

**Aurélien Ravary** is an economist and statistician in the Financial Operations Studies and Statistics Division at the Banque de France. He is an expert in the quarterly financial account team, dedicated to improving the financial accounts production pipeline. He holds master's degrees in Public Affairs and Economics from Sciences Po and is a certified data scientist through ENSAE-ENSAI.

**Julien-Baptiste Cinquin** is an economist in the monetary and financial statistics division of Banque de France. He was previously an analyst at the ECB in the cross market analysis and intelligence division. His research interests lie in the field of monetary policy, banking and financial markets.

**Sofia Semik** is a research economist in the Monetary Policy Division at the Banque de France. She holds a PhD in Economics from Goethe University Frankfurt. Her research interests lie in the field of macroeconomics and monetary economics, focusing on monetary policy, climate policy and inequality.
