

## Securities issues by French residents - 2024Q2

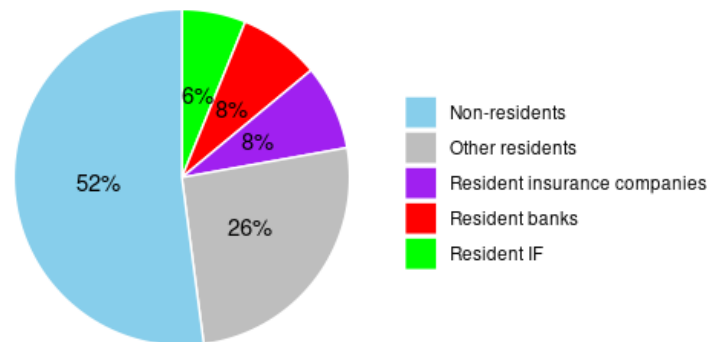

### The proportion of securities held by non-residents increased slightly

- In the second quarter of 2024, net issues of French debt securities reached €94 billion. General government issued €65 billion while banks repaid €1 billion.
- Non-resident investors purchased €71 billion in French debt securities and €10 billion in French quoted shares.
- At the end of June 2024, non-residents held 58.5% of long-term debt securities, after 58.2% at the end of March 2024. This proportion continued to rise for securities issued by general government.

**Graph 1 : Non-resident holdings of long-term debt (by resident issuer sector)**

**Graph 2 : Breakdown by holder sector of securities issued by residents (total debt and quoted shares) at the end of June 2024**

Note : total may differ from 100% due to rounding.

This document is prepared by the General Directorate of Statistics, Economics and International of the Banque de France (Balance of Payments Directorate). Issuance data is based on issuers' reporting, while holding statistics is calculated using custodian account statements. Further information on custodian activities : [Statistiques | Banque de France \(banque-france.fr\)](#)

"Long-term" stands for securities with an original maturity of more than one year.

Data reported in this document can be revised following quarterly and annual corrections and supplements.
